PROJECTS

Mental Health Project, Academic Project   Three Weeks

- Utilized Photoshop and Illustrator to design posters and UI.
- Earned positive feedback on design elements and UX/UI.

Discord Robot, Personal Project   Four Months

- Utilized JavaScript to code basic commands in VS Code.
- Designed as an RPG for the UX/UI and played as a text-based RP

Stones In The Sword, Senior Project   Six Months

- Utilized HTML, CSS and JavaScript to make a AR Scavenger Hunt
- Led a team of three New Media Interactive Development students
- Developed and designed the application using multiple APIs along with organizing code and files

WORK EXPERIENCE

Beanz   August 2019 – November 2022
Student Manager   Rochester, NY
- Provided excellent customer service and public relations. Coordinated with various employees to maintain quality service for customers and cleanliness.

Changeling Co-Op   May 2021 - August 2021
Web Development Intern   Remote

- The assignment was redesigning an entire webpage in relation to a character for the project. The task specifically assigned to me was to redesign the website to fashion someone's first website for a business. The project included multiple meetings, collaborations and most importantly unity.

Barista Market Co-Op   June 2022 - August 2022
Web Development Intern   Remote

- The task was to build the front and back end of a website as a template for a starter website. Toured the building to see what the website could give to consumers.
